MEMORANDUM TO USERS OF MISCELLANEOUS PUBLICATION NO. 189,  
"Synopsis of Federal Plant Quarantines Affecting Interstate Ship-  
ments in effect January 1, 1934"

Owing to recent revisions of quarantine regulations relating to the gypsy moth and the pink bollworm of cotton, and because of the establishment or discontinuance of certain post offices, the changes listed below need to be inserted in the above-named publication to bring it up to date.

QUARANTINE NO. 45

The regulations of the gypsy moth quarantine were revised effective October 2. Please insert the following changes in Miscellaneous Publication No. 189:

Page 6

Line 7 - Change the effective date of the revision from June 1, 1931, to October 2, 1934.

In the paragraph entitled "Restricted articles" insert "and empty cable reels" in subsection (2) following "lumber."

Under the heading "Restrictions" insert the introductory phrase, "Except as provided in paragraph (5) hereof," immediately preceding "No restricted articles" in paragraph (1) and also immediately preceding "No deciduous trees" in paragraph (3).

Under the side heading "(2) Christmas trees and evergreen boughs" insert in line 6 after "infested area" the following: "(unless grown as nursery stock in a cultivated nursery and certified under the provisions of Reg. 6.)"

Page 7

Paragraph numbered (5). Show that plants grown in the greenhouse throughout the year, as well as cut flowers of such plants, are exempt from certification when labeled as so grown.

Page 23

In the list of restricted articles insert "Reels, cable, empty - 45."

PLANTS EXEMPT FROM GYPSY MOTH CERTIFICATION UNDER QUARANTINE NO. 45

The following plants are considered as not having persistent woody stems and are therefore not subject to the certification requirements of the gypsy moth quarantine (Circular PQCA-313, dated June 19, 1931).

Climbing bittersweet (Celastrus scandens)  
Clubmoss (sometimes called "ground pine") (Lycopodium spp.)  
Fuchsia (Fuchsia spp.)  
Geranium (Pelargonium spp.)  
Heliotrope (Heliotropium spp.)  
Jerusalem cherry (Solanum capsicastrum, S. pseudocapsicum,  
S. hendersoni)  
Mistletoe (Phoradendron flavescens, Viscum album, etc.)  
Partridge-berry (Mitchella repens)  
Strawberry plants (Fragaria spp.)  
Trailing arbutus (Epigaea repens)  
Verbena (Verbena spp.)  
Wintergreen (Gaultheria spp., Pyrola spp.)

CORRECTION

On page 83, please change "Grantville", N.Y. to read "Granville."

QUARANTINE NO. 52

On page 9 of Miscellaneous Publication No. 189, immediately above the center head "Summary" insert "and Amend. No. 1, effective Sept. 19, 1934."

The lightly infested area regulated under the quarantine relating to the pink bollworm has been extended. The following post offices and quarantine designations are added, beginning near the bottom of page 35. (This list may be clipped and pasted if desired.)
